A simple question

by MiaQc

Summary

A simple question from Luigi sends me into deep thought. "Can we use the Ice Flower and the Fire Flower at the same time?" The answer is "No." It's obvious. But...

- A translation of Une simple question by MiaQc

One question.

A simple question.

"Can we use the Ice Flower and the Fire Flower at the same time?"

Coming from Luigi.

It was so simple, and yet I'm now deep in thought.

The answer is "No."

It's obvious.

But...

There's always a "but."

I know that using one Power-Up Item cancels out another.

It's always been that way.

But using two at the same time?

I don't know if anyone has tried.

I should ask the Toads. One of them must know if...

No.

I'm the Mushroom Kingdom's princess.

It's my responsibility.

To find out if it's possible.

I just need to find a Fire Flower and an Ice Flower.

***

It took me a while, but I found them.

The two Flowers are side by side.

I have to take them at the same time.

There.

The Fire Flower in my left hand.

The Ice Flower in my right hand.

And now...

Now.

I take a deep breath.

I breathe out.

And I put the two flowers on my body.

***

There was an explosion of light.

My head spins.

I look at myself.

My dress is half red, half blue with white.

I'm focusing.

A fire ball form in my left hand.

An ice ball form in my right hand.

I start laughing with joy.

It worked!

We can use the Ice Flower and the Fire Flower at the same time!

I can't wait to see Luigi again to tell him.

Mario too.
